

# MECHANICAL FIXINGS

This document is intended to provide general recommendations only. Trespa provides these guidelines and all testing, code and design data for informational purposes only and strongly advises that the customer, project owner and architect seek independent advice from a certified construction professional and/or engineer regarding application and installation as well as compliance with design requirements, applicable codes, laws and regulations, and test standards. Please check your local codes and applicable design requirements for proper use.

The choice of mechanical fixings and availability per country must be in accordance with applicable building standards, regulations and certificates. Trespa strongly advises that the customer, project owner and architect seek independent advice from a certified construction professional and/or engineer regarding the accordance to national and/or local building regulations of fixings. Fixing any Trespa® panels should only be done by a construction professional with proper equipment and joints.

Trespa does not make any representations as to the implications of using a specific fixing and disclaims any and all liability or damages related thereto. This overview of systems does not include non-mechanical fixings.

For suppliers of fixings, please contact your local Trespa representative.

Fixing	Countries									
	Netherlands	Germany	Belgium	France	UK	Spain	Italy	China	Chile	USA
1. Selfdrilling screw				■
